

Please do not interfere or change Indiana's "No-call" program. This program has had a tremendous, positive effect on my family's life. We now have time to sit down to a meal together and visit without the phone ringing constantly with solicitation calls. Those calls are an invasion of precious family time and personal "down" time. If I want a product or service, it certainly wouldn't come from a telemarketer. Please leave our law alone!

Sincerely, A Very Happy Hoosier Kim Herr
